

meaningful research question intersection

Final Project

- **Goal:** Explore a meaningful research question at the intersection of OT and ML
- **Topic:** Can choose from one of the suggested (broad) directions we will provide
 - Should make a novel contribution (theoretical, empirical, or both)
 - Or apply existing methodology on a new domain
 - Or provide a novel view on existing work
- **Format:** Teams of 3 to 5, can be self-selected or matched by teaching staff
- **Feedback:**
 - Project feedback during office hours in the 2nd half of the semester (via signup)
 - Each team must meet with TFs at least every other week after proposal submission

Office Hours

- **David:** Tuesdays 2:00pm - 3:00pm, SEC 2.332.
- **Alex:** Thursdays 2:00pm - 3:00pm, (Room TBD).
- **Jay:** TBD.
